NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Period of six months ended June 30, 2009

(all amounts are in Canadian dollars unless otherwise indicated)

1 - DESCRIPTION OF BUSINESS

The Company, incorporated under Part 1A of the Companies Act (Québec), has interests in mining properties that are at the exploration stage and for which the profitability of operations has not yet been determined.

2 - ACCOUNTING POLICIES

Basis of presentation

The financial information as at June 30, 2009 and for the periods ended June 30, 2009 and June 30, 2008 is unaudited ; however, in the opinion of management, all adjustments necessary to present fairly the results of those periods have been included. The adjustments made were of a normal recurring nature. Interim results may not necessarily be indicative of results anticipated for the year.

These interim financial statements are prepared in accordance with generally accepted accounting principles in Canada and use the same accounting policies and methods used in the preparation of the company's most recent annual financial statements. All disclosures required for annual financial statements have not been included in these financial statements. These interim financial statements should be read in conjunction with the company's most recent annual financial statements. Furthermore, they have not been reviewed by the Company's auditor.

Going concern

The financial statements are prepared in accordance with accounting principles applicable to a going concern, on the assumption that Robex Resources Inc. will continue its operations for the foreseeable future and will be able to realize assets and discharge liabilities in the normal course of business. The Company has incurred substantial operating losses in the past fiscal years and has yet to determine if its mining properties contain ore reserves that could be commercially profitable.

The Company's viability is contingent on periodically obtaining new funding to pursue its activities. Even though the Company has been successful in obtaining support in the past, there is no guarantee that it will be able to do so in the future.

Although the Company has taken steps to verify the title to mining properties in which it has an interest in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and may not be in compliance with regulatory requirements.

(2) Due to the net losses incurred during each of the years ended December 31, 2008 and 2007, all of the potentially dilutive securities were considered anti-dilutive.
